

29 March 1956

MEMORANDUM FOR: Mr. Lloyd

SUBJECT : Survey Report No. 00815

1. The attached claim deals with damage to a [] carryall near []. The people riding in our carryall were covered by our own insurance policy; the vehicle itself was not covered. No information is given regarding the bus which caused the accident insofar as responsibility as a public carrier is concerned or whether or not the company carried insurance.

2. I don't know the local situation as to requirements for insurance, etc., but it would seem to me that since there was an American Government vehicle involved, [] would be able to press for some kind of quick action and damages in this instance without a lot of litigation. It would also appear that there would be no security factors involved.

3. There is no question here but that the vehicle should be removed from Agency inventory. I feel, however, and I think [] does also, that we should not drop the matter but should explore the possibility of reimbursement from the bus company on behalf of the Government.
